The Daily Sentinel.

JOSIAH TURNER, Jr., EDITOR.

THE SOUTH, THE CREDITOR SECTION NOW.

It's the South, now, that is the creditor section of this (so-called) Union. Her cotton, sugar, and other crops, the Lord be thanked, have turned out magnificently, and the result is, the "ex rebs" to day have, in point of fact, more hard cash and more real credit, than any "section" can boast of at our end of the line. The West continues poor, and is likely to remain in that condition for a long while to come. Its cereal crops are abundant, but as the harvests abroad are likewise turning out well, it looks as if there was not going to be much demand for export, and lower prices will probably rule. They have, and are going to have, plenty of breadstuffs, but nobody counts them; hence, we repeat, the West, at least for this season, will not be in a condition to settle up old scores and open new accounts. They will have money enough to pay their way, but that is all.—They will have no surplus. They will not be able to come to New York to clean out the jewelry stores, the fancy dry goods establishments, and supply themselves with the "notions" that used to wind up their fall trade, when corn and wheat and pork commanded better prices than at present. They will have to sail close to the wind if they intend to make both ends meet. And New England will have to go and do likewise. So will the Middle States, where they are constantly grumoling about the back wardness of trade and the hard times. The South, however, can afford to "laugh and grow fat" over those *miseraldes*, and felicitate itself on the fact that even if the mean wretches do persist in keeping it out of the Union, and governing it by bayonets and carpet baggers, they are getting from the cotton crop alone money enough to make them "masters of the situation," commercially and financially, for an indefinite period to come. And if they are masters in *that*, it will not be long, in the nature of things, before they are masters in other things. Here in the North you can do anything with money, but nothing without it. Whoever can command most cash will always be sure to command the most Yankees. Congress then will come round right. They could not, if they would, resist the temptation to make friends with the creditor section, and, to stand by those who have the most money. The thing "will pay," you know, and as long as it "pays," they would just as lief that cotton or tobacco or sugar, would be king, as the negro, or the soul of the late John Brown. We congratulate our Son hern countrymen on this happy turning of the tables in their favor. It shows that Providence, at least, has been with them, if the powers of darkness, at Washington, have been banded against them.—*Metropolitan Record.*

We clip the following from the *Carolina Farmer* for September:

HOW SOUTHERN FARMERS ARE SWINDLED IN NEW YORK.

Our farmers are interested to know how they are sometimes dealt with by Northern correspondents, and why it is the vegetable trade has proved so near a failure this season. This they will learn by reading the following article, copied from the New York *Sun*, of the 5th inst.:

A case of swindling, which is of common and almost universal occurrence, has just been brought to light in an affidavit made by Mr. Robert C. Lowry, of Florida, before marshal Tooker, which deserves the fullest exposure and condemnation of the press and public. Mr. Lowry is an extensive agriculturalist, and for some time past has been selling the produce of his farm in this market through the agency of a friend named Thompson, and the commission house of——, of stand No. —, Bulkhead, South of Barely street, and No. — West street, near Veasey street.

Mr. Lowry was a regular reader of the country editions of the *Sun*, wherein he saw the quoted New York prices for such goods as he had to sell. He was thereby enabled to calculate almost to a cent what amount of money should be returned to him, less the usual commission, ten per cent., but he did not anticipate such large reductions from these sums as he was obliged to bear when his checks were forwarded. His suspicions were aroused, and he determined to ferret out the matter if possible. Having in early life had some experience in detective business, he "put up" a job for —— & Co., which would work like a charm. He came to New York, called upon his friend Thompson, stated to him his suspicions. Mr. Thompson felt a sort of moral obligation to assist in the matter, and he readily went to the commission house and purchased five crates of beans with Mr. Lowry's card still on, for which he paid two dollars and fifty cents each, and took a receipt therefor. Mr. Lowry shortly after appeared on the scene, and requested a settlement, which was made out in due form, but the five crates of beans were credited as having been sold for one dollar and fifty cents each, from which the commissions were afterwards deducted.

Some fifty or sixty dollars worth of farm produce was treated similarly in this single transaction. As soon as Mr. Lowry received his agent's statement, he produced the bill of Mr. Thompson, and asked for an explanation. There was then a terrible flutter all around, and offers to "settle the matter" and not expose the swindle were numerous and pressing. But the victim would not listen to compromise. He took his receipt and —statement, together with the cards from the crates, as collateral evidence, and embodied the information above given in the form of an affidavit, and asked for the issuance of a warrant. That instrument was granted, and the accused parties appeared before the marshal and again offered to compromise; but Mr. Lowry, by diligent inquiry, had become satisfied, in the meantime, that this species of swindling is extensively carried on by commission merchants here, and that scores of his Southern neighbors have been served like himself, and he again refused to compromise. He intends to prosecute this firm to the fullest extent of the law, and break up the contemptible practice, if possible. It is believed that other Southern victims will take the same course, and thus put an end to a system which is alike injurious to the consumer and the producer, but which fills the pockets of soulless middlemen.

A sentimental chap intends to petition Congress for a grant to improve the channels of affection, so that henceforth the course of true love may run smooth.

DOTY'S WASHING MACHINE,

LATELY MUCH IMPROVED,

AND THE NEW

UNIVERSAL CLOTHES WRINGER.

Improved with ROWELL'S PATENT DOUBLE COGWHEELS, and the PATENT STOP, are now unquestionably far superior to any apparatus for washing clothes ever invented, and will save their cost twice a year, by saving labor and clothes.

Those who have used them give testimony as follows:

"We like our machine much; could not be persuaded to do without it, and with the aid of Doty, we feel that we are masters of the position."—*Rev. L. Scott, Bishop M. E. Church*

"It is worth one dollar a week in any family."—*N. Y. Tribune.*

"In the laundry of my house there is a perpetual thanksgiving on Mondays for the invention."—*Rev. Theodore L. Cuyler.*

"I heartily commend it to economists of time, money, and contentment."—*Rev. Dr. Ballows.*

"Every week has given it a stronger hold upon the affections of the inmates of the laundry."—*N. Y. Observer.*

"Friend Doty—Your last improvement of your Washing Machine is a complete success. I assure you 'our machine,' after a year's use, is thought more of to-day than ever, and would not be parted with under any circumstances."—*Solon Robinson.*

"Your Washing Machine has been in daily use in our laundry, and the housekeeper expresses herself as highly pleased with it. It certainly accomplishes a greater amount of work, with less labor, and does not wear the clothes near so much as the old fashioned wash-board. By using it one laundress is dispensed with."—*Wm. M. F. Round, Superintendent of Infant Department of St. Catherine's Nursery, N. Y. City.*

PRICES.—A Fair Offer.

Send the retail price Washer $14, Extra Wringer $7, and we will forward either or both machines, free of freight, to places where no one is selling; and so sure are we they will be liked, that we agree to refund the money if any one wishes to return the machines, free of freight, after a month's trial, according to directions.

No husband, father or brother should permit the drudgery of washing with the hands, fifty-two days in the year, when it can be done better, more expeditiously, with less labor, and no injury to the garments, by a Doty Clothes Washer, and a Universal Wringer.

Canvassers with exclusive right of sale make money fast selling them.

Sold by dealers generally, to whom liberal discounts are made.

THE SENTINEL.

JOSIAH TURNER, Jr., EDITOR.

FRIDAY, SEPTEMBER 17, 1869.

SOCIAL STANDING.

We clip the following from the *Standard* of Tuesday last:

"FALSE STATEMENTS NAILED.—The SENTINEL is trying to lead the people. This is a very laudable ambition, and one in which labor enough has been spent by that organ, to have had success instead of failure, which is now the case. There is no denying the fact, than the SENTINEL, is in a much worse condition now that it was one year ago, both finally, socially and politically. What is the cause of this? It is to be found in the fact that the paper mis-leads the people. If any candid reader, we care not of what political party, will take the trouble to read over the files of that paper for the last twelve months, they will see it is filled with misrepresentations and false statements."

We have rarely noticed what the *Standard* has had to say of us; our Local Editors, sometimes in our absence, replied to its questions and arguments "so-called." We have not done so, nor shall we—except as suits our pleasure and convience.

What the *Standard* says of us can't be read by the negroes, and will not be, by the respectable portion of the whites. It made not republish in order to reply to what he says 'twill never circulate far—hence our indifference as to what he says.

When Governor Holden sold, or pretended to sell, to N. Paige & Co.,—N. Paige & Co. was said to be General Littlefield and certain Bankers in Wall Street, with certain natives of the State.

This firm, with Governor Holden, the Lieutenant Governor, Brother Pepper, Victor Barringer and the Code Commissioners, Coleman the Attorney General, Judge Dick, Rodman and others of the Supreme Court, to write editorials, soon made the paper and the firm so odious as to make a dissolution necessary. N. Paige, because of a scandalous editorial directly assailing the character of every lady in the State, left the firm and returned to the *Tribune* office in New York, whence the vile creature had been brought up.—Upon Governor Holden's recommendation, John Neathery is substituted for N. Paige.

John stood about in the office while, under his name, Governor Holden, Victor Barringer or any sneak, with a false pen, was allowed to give vent to his malignity through the paper. This firm played out, and Captain J. B. Neathery is no longer Captain and proprietor of the *Standard*, but he is a poor wounded soldier, reduced to the ranks; he is not even a corporal in the office. The devil even don't call the late proprietor "Mr. Neathery," but "John," General Gatlin would not know his old staff officer in his present humiliation and disgrace. If General Littlefield had regard for anything except making money out of State bonds, he would make the devil in the office quit calling the late proprietor "John."

The *Standard*, while receiving "daily, clubs of ten and twenty subscribers," is sold out by the late proprietor Self-respect required that, he should have sold for enough to retire from the office.

Now the firm is Pike, Editor; M. S. Littlefield, Publisher, and there is no proprietor.

When the Publisher was absent recently, an attachment was issued and levied on the new *Standard* office. One debt levied, we understand, was for the wine, whisky and cigars used in corrupting the Legislature,—we beg pardon—we should have said used in corrupting the "hands." So much for the financial and political standing of the *Standard*. We forbear to speak of its social standing.

Proprietor "John," before he was broken of his editorial commission, called the SENTINEL a "bankrupt concern which had never been paid for." Our friend and predecessor, of whom the SENTINEL was purchased, desired, in a card, to say he had received every cent of the purchase money. We said, no; it was sufficient that he had received his money, and the question could not be made of interest to the public.

Now, while we are upon the financial question, we are not disposed to detract from the financial standing of the *Standard*. When attachments were issued for near $30,000 against Gen. Littlefield, and levied on the office, many persons were alarmed lest they should lose their debts. We told them the man who could get one hundred thousand dollars for lobbying the Chattanooga Railroad through the Legislature, could not break. That the half million he would make, by and through the negro Legislature of Florida, would make him good.

To-day, we heard it on the streets that Gen. Littlefield had sold his interest in the Florida speculation for $100,000. So whatever may be the financial condition of the SENTINEL, the Florida transaction makes that of the *Standard* easy for the present.

The Brooks money for bankrupt advertising is not as flush as it was, but what boots it to Littlefield and the *Standard* so long as Florida has a negro Legislature that can be bought?

OUR EDUCATIONAL PROSPECTS.

We alluded yesterday to the loose pecuniary operations by which, through Mr. Ashley, the State Board of Education had forced upon the people, under what we have good ground for saying is a surreptitious law, school books repugnant to their feelings and judgment, and at an enormous extra expense to the people of the State.

We do not hesitate to say that our self respect and a sound policy dictated that books prepared by *North Carolinians* ought by all means, to have been adopted, and we did entertain some hope that even Gov. Holden had State pride enough to insist on this. But he seems to have lost all the spirit of a North Carolinian that he ever had, if indeed, he ever had any.

But there is another thing about this matter to be considered. How is it that Mr. Superintendent Ashley becomes the zealous advocate, if not the avowed Agent of A. S. Barnes & Co? Is Mr. Ashley to receive a reward for his services in that behalf? It is apparent that Messrs A. S. Barnes & Co., could afford to pay for such an arrangement thirty or forty thousand dollars, and then make an immense profit. They get a monopoly, and it is reasonable to infer they paid somebody for it; especially in view of the more liberal and cheaper propositions made by other publishing houses of greater merit; and the further fact that it is important as a matter of sound policy, to interest several publishing houses instead of but one.

The truth is, there is something *wrong* about this matter, and, facts and circumstances point directly to Mr. Ashley as, at least, one of the interested parties.

We learn that a zealous Radical member of the Legislature, from the West, who was on the Committee that reported the School Act bill, predicted exactly that which has turned out. He said "Old Cape Cod Ashley will sell the monopoly to some one publishing house at the North, and introduce such objectionable school books as he wished." That member has lived to see and realize his prophecy. May-be he will have something to say of this thing when he comes here in November.

Upon the whole, the subject of education in this State, like everything else "Ring men" can touch or control, is in a lamentable state of blight, and the only hope of relief is in a change of rulers; there is no hope of changing the spirit or purposes of the men pretending to administer the Government. They are lost to every sense of shame, self respect, patriotism or honorable ambition. They are desperate, and intend to do all the evil they can, until the people rise up in their might and hurl them into utter political and social oblivion.

The same little game, in regard to school books, played in this State, is now being re-enacted in our sister State of Virginia, but, we learn, with less prospect of success.

NORTH CAROLINA BONDS.

To the Editor of the New York Times:

I observe by a recent issue of your paper that payment of interest on the latest issue of North Carolina bonds is promised before interest on the old bonds of that State. What can be more damaging to the State credit than such a proposal? If the State can pay any portion of the interest, honor suggests, and hopesty demands that the faith of the State should be first respected where it was first pledged. Any special legislation or financiering which even seems to neglect or disrespect the old pledged faith of the State cannot be otherwise than disastrous to its prospects.

HONESTY.

We received the above by letter from a New Yorker with a request to publish and comment. The article is full and complete of itself. The interest on the new bonds will be paid, while the interest on the old bonds will be deferred. As to the demands of honesty and good faith, they are out of the question. Neither honesty or good faith show themselves in the reconstruction measures.

Let "Honesty" call on Governor Holden and Treasurer Jenkins, who are now in New York, to explain why the honor of the State is not first redeemed where it was first pledged.

If they will give him no satisfaction, let him call on Scuter and Company. Mr. Porter, of the firm, can give the whys and wherefores for the payment of the interest on new instead of old bonds. Mr. Porter, with Littlefield & Co., run our financial machine. Governor Holden and Treasurer Jenkins are suspected of helping in a small but secret way. Last Spring the Governor telegraphed that the interest would be paid Littlefield and Company, it was thought, made money by the telegram. Instead of telegraphing, the Governor goes in person. We urge you again "Honesty" to call on the Governor and Treasurer.

NOT DEAD.

Our Carrier at the depot offered the SENTINEL to a citizen of Johnston county; he asked who was the editor.

"Mr. Turner is the editor" was the reply.

That's not so, said the traveller from Johnston, he was shot three months ago.

The Carrier, after much argument, convinced the traveller that the editor was living and he bought a paper.

If the travelling citizens of Johnston think we are dead the stay at home will certainly believe it. We can prove by Mr. Leach, of Johnston, that we are not dead, for the Doctor saw us a day or two ago.

A strong minded woman in New York was heard to remark the other day that she would marry a man who had plenty of money, though he was so ugly she had to scream every time she looked at him.

Lopez still holds out with his little army of Paraguayans against the combined forces of the Allies. He recently defeated the latter in a sharp engagement, killing two hundred. Our late Minister to Paraguay, Gen. McMahon, commends Lopez as being both intelligent and courageous.

In the inquest over the Avondale miners no testimony has yet been elicited as to who caused the fire, which it is alleged in the evidence was the work of an incendiary. The counsel for the company are holding some convincing evidence on the subject in reserve until full proof of the incendiarism is established.

NORTH CAROLINA CREDIT.

The "Ring" has probably sold out, and are ready for another move. The New York *Times*, (Republican,) has the following concerning the bonds of the State of North Carolina:

"A Raleigh announcement by telegraph is to the effect that the April interest will be paid in that city on such of these special tax bonds as may be in the hands of the public—the amount said to be two or three millions out of $10 240,000 designed to be marked in New York, if practicable, to build certain new railways, in preference of $18,049,946, including back interest, heretofore issued for the old railways and other State purposes. These latters are acknowledged to hold the same rank as a charge upon the general revenues and public faith of the State. The pretext of special tax security on the new bonds rests upon the provision of the amended constitution requiring additional taxes to be levied by the Legislature whenever the State debt is increased. But we discover nothing more forcible in the new than in the old fundamental law for the preservation of the entire public faith. And, if the State holds $11,241,000 stock and mortgages in the old railways, (most of them ante-war,) which cannot be made available with the help of the ordinary State revenues to pay the interest on $18,000,000—even after the arrearages of interest up to 1866 had been funded under promise of a general resumption of payments, and the funding boards, to the amount of $2,439 000, now known as the 'New North Carolinas,' sold in the New York market at 66a70 cents on the dollar, it is scarcely to be credited that new railways, some of them barely commenced, can be implicitly relied upon to help the State pay the interest on $16,240,000—much longer at least than it will take to market the whole amount. We make these suggestions by way of caution to the public against buying the bonds upon the mere announcement of one or two installments of interest to be paid on a few millions already in second hands as sold for cash or exchanged for railroad iron, but in no hostility to North Carolina credit properly administered."

For the Sentinel.

The Kuklax has begone on the innocent and you no all about it and if you dont want to git up some of these times or see your things on fire they had better not come here no more, if they come you may look out for the ust.

ALAMANCE, COUNTY, N. C. Sept. 15th 1869.

Mr. Editor:—The above is a *verbatim* copy of a League notice, left at the house of a peaceable, quiet and as respectable a Conservative as there is in this county.

It would seem that the Leaguers in their mid night conclaves have singled out the premises of some well to do Conservative, to hold as a hostage against what they term as "outrages" committed by Ku Klux on League men. In other words they purpose to visit punishment upon the innocent for the deeds and acts of the guilty.—Would you not suppose Mr. Editor when this condition of things is inaugurated in a neighborhood, that the leaders of the league and their effects will go down in the same general ruin? Could they expect to escape the vengeance of an outraged people? Could they expect to march on in their infamy—their vile and sordid purpose to destroy the peace and prosperity of their fellow-men and not meet the punishment they would so richly merit? The leaders of the league—corrupt "scalawags," for base political purposes, have created the impression on the minds of the ignorant negroes that the Conservatives are enemies to them and their interest, and this impression is encouraged, sustained and fostered, by the philanthropic "carpet baggers," from New England, under the guise of school teachers, which is, in itself, an insult to the morals and intelligence of the good people of North Carolina. Is the South a Hayti or a St. Domingo, inhabited by barbarians, which makes it necessary for these conscientious, pious, God-fearing carpet bag Missionaries to come down to teach our people the knowledge of truth and the light of understanding? Gov. Holden, by his *legal*, peace-loving institutes quartered in the county of Alamance, a *legal* militia, to protect a *legal* Radham from the outrages of a disloyal Ku Klux, which a disloyal league had sprung into existence. If the Governor will again send his militia to this county and dissolve his disloyal league, then, indeed, will "peace reign in Warsaw," and historians will write it in letters of gold that one act at least of his administration was meritorious. The Governor, with an intuition, which did more credit to his head than his heart, encouraged these disloyal leagues to accomplish his own political ends, and it remains to be seen whether the power that raised the storm which now disturbs the peace of society and threatens to engulf it in one common ruin, will be able to stay it. If the Governor will dissolve the disloyal leagues, and hereafter seek his political preferment on high and honorable principles, no Conservative's premises need be wrapped in the lurid glare of conflagration or the loyal brain haunted by the ghostly spectre of Ku Klux. But until that is done, until the cause be removed, the disease must remain a fixture to prey on the body politic beyond the reach of remedies. TRUTH.

THE ANNUAL CONSUMPTION OF BEER IN EUROPE.—A learned professor of Munich publishes some curious statistics concerning the amount of beer annually consumed in Europe. The total quantity manufactured he estimates at the prodigious figure of five thousand millions of mitres; more than enough, as he perhaps somewhat maliciously asserts, to float the whole Prussian navy. The average number of litres consumed per inhabitant in 1868 was in Bavaria, 134; England, 113; Belgium, 80; Austria, 22; France, 20; Prussia, 19; Spain, 2; Russia and Italy, 1. Referring to the large quality drank in his native country, the author candidly owns that he is personally responsible for six litres a day or 2190 litres per annum.

DEATH OF THE FRENCHMAN WHO FIRED AT THE IRON DUKE.—A French paper, copying from a Belgian contemporary and being slightly anti-dynastic in its color, announces the death of the Sieur Cantillon, who had long enjoyed 10,000 francs a year settled on him by Napoleon I. for firing at the Duke of Wellington when the allies were in Paris. The annuity used to be paid by the French government till a few years ago, when some member of the Parliament put a question to the Foreign Minister on the subject and a lump sum was handed to Cantillon in lieu of the pension.

Two separate meetings of the Fenian Brotherhood were held in New York Sunday. It is stated that a plan for for another invasion of Canada and a proposition to abduct Prince Arthur were decided upon. Not very likely. Where would they carry him to, and where keep him.

The officers of the Society of the Army of Tennessee have expressed the opinion that Congress ought to erect a monument to the memory of Gen. Rawlins.

Grant has a peculiar way of drowning his grief. No sooner is the funeral of Mr. Rawlins over than he starts off on another pleasure trip.

For the Sentinel.

AMONG THE MINES OF GUILFORD.

MR. EDITOR:—A short time ago I made a visit to the South-western part of Guilford, and was consequently among the mines, since a great deal of that region has been burrowed under by the miner. As anything respecting the mineral resources of North Carolina is interesting to her people, I offer your readers a few notes made at the Gardiner Hill Mine, the only one of the Guildford mines I found in operation.

The Gardiner family, whence the mine takes its name, came from Massachusetts to this portion of Guilford more than a hundred years ago; but as they were Quakers they consequently erected no tombstone to their dead, and on the Deep River burying ground, (Quaker,) a few miles from the mine, the older members of the Gardiner family lie without anything to tell of their age or the time of their removal to North Carolina.

Until within a few years back, the Gardiners owned all the land near and around the mine, and they first had it worked about the time Prof. Olmsted visited this section, which I think was about 1820. If operations were commenced then, the mine has been worked fifty years. For more than thirty years it was worked by the Gardiner brothers as a gold mine, and the greater part of this gold was obtained on the surface.

When mining operations were first commenced here, the owners rented the surface, men digging and washing out the metal, and giving the tenth and the eighth at first, and in the course of time paying the fourth for rent. In this way the mine was worked for many years. Up till the copper fever, the quantity of gold taken out amounted to about a half a million of dollars. During the copper fever, in 1852 or 1853, the Gardiners sold out to Alex. Homey and Prof. Emmons, and they in turn sold, in 1857, to parties from Washington, N. C. These sold to a Baltimore Company in 1859, which has owned the mine ever since. When Prof. Emmons bought the mine the gold digging was stopped, and it became a copper mine. As to the quantity of copper that has been taken out, the number of pounds is immense; but in dollars there has probably been less copper than gold obtained. Before the war, in prosperous days, the quantity of copper shipped, ready to the smelting furnace, was fifty to sixty barrels, of nine hundred pounds each, per day. In those days a large force was worked; but now a very small one, only about twenty five. Until the week I visited this mine there had been eighty hands working; but the Company had ordered many of them to a mine they own in Chatham.

The main shaft is nearly three hundred feet deep, and the water is pumped from it by a sixty-horse power engine. The water was almost as cold as ice, but grass unpicked out on account of the mineral, and pumped up in such quantities that it makes a considerable brook, bordered all the way down the hill with grass as green as that around a spring.

From the main shaft, which is sunk on the top of Gardiner Hill, extend three main drifts, each one hundred feet in length.—Gold stops at the depth of one hundred feet. The main shaft is very wide, and the descent is by means of iron ladders. There are three apartments in the shaft; one on the left through which the ore, mud, &c., is brought up; one in the middle in which are the ladders, and one on the right for the pump. These all have partitions between them.

The whole hill is burrowed under, and spurs from the drift point in every direction.

The timbers in the old mine are now thought to be unsafe, and for this reason some of the most intelligent and thoughtful English miners have left. About two years ago a fire destroyed all the mining houses, machine shops, &c., and new ones now occupy their places. Small specimens of gold may still be found on the surface of the hill. Mr. Wm. Wiley, who owns a store near the mine, showed me some lumps of gold that had been brought in by people in the neighborhood in payment for goods. Mr. Wiley told me that at present the Company pays out about $1,000 every month, and that the miners spend it nearly all at his store, the only one very near the place. A few hundred yards below Gardiner Hill, immediately on the banks of the creek, is the Gardiner Valley Mine, owned by a different Company. It is not now in operation. Going up the same stream, to the north of Gardiner Hill, there is a new shaft, as yet only about one hundred and sixty feet deep. It is inclined, and the dip is so gradual that a man may almost walk down it by holding to the ropes of the buckets, which slide up and down continually drawing up mud and water. At thirty feet down, a drift branches off from this new shaft, extending about forty feet or more into the hill.

In this shaft and in those of the Hill a great quantity of ore is now awaiting removal. None has been taken out this year, and the miners have been employed in cleaning out and making new drifts that they may take out the ore uninterruptedly when they commence it. Large piles of copper ore, taken out last year, still lie there.

I was detained at the mine until after dark, and when the night-relief went down in the new shaft the scene was quite picturesque. The sun had been gone for some time, but a beautiful sunset glow was still left on the little clouds floating up from the West, and the young moon cast a soft light over the whole scene of rugged hills, from which here and there high promontories of flint and pulverized clay, or sandstone, jutted out in bold, picturesque outline against the sky; their bases stretching almost down to the willow thickets that shaded the winding stream. As I stood by the mouth of the pit, looking out on this scene, the night-relief came up, one by one, every man with his candle and "crib," ready for the night's work. The *crib* is a little bag full of rations for their midnight *dinner*.—As each bucket came up a minor would fasten on his lighted candle with mud, and when the "whim" was turned for the emptied bucket to go down, he would grasp the rope and go down—down in the deep mine, his candle giving a fainter and fainter light, until at last lost in the darkness. Yet each one went down whistling or singing some merry song, like a plow boy to the field.

All the dwellings about the mine, (and there is a real little village of them) are neatly built and whitewashed, and being scattered over the surrounding hills and seen in the half-twilight fading into moonlight, added much towards making the scene picturesque—even beautiful.

Capt. Eudy, the sufficient and gentlemanly Superintendent of this mine, was absent at the time of my visit, on business for his company.

The Cumbridge mines are one mile north of Gardiner Hill, and the Guilford (formerly Lindsay) and North State mines are beyond Deep River, five or six miles from the Gardner mine; but none of them are in operation. GUILFORD.

Sept., 1869.

Leading Southern railroads have agreed to pass delegates and honorary members of the Louisville Commercial Convention free. The committee of arrangements have sent circulars to other roads asking favorable rates for delegates.

TRIBUTE OF RESPECT.

At a regular communication of Lenoir Lodge, No. 233 held in the Masonic Hall at Lagrange, N. C., on the 4th day of Sept., A. D. 1869, A. L. 5869, the following preamble and resolutions, expressive of the fortitude of the Lodge in regard to the death of Bro. Geo. F. Whitfield, were introduced and adopted:

WHEREAS, An all-wise Providence has been pleased to remove from our midst our much esteemed brother, Colonel GEORGE F. WHITFIELD whose herculean efforts for the advancement and building up of his adopted town, gained for him the admiration and esteem of all good citizens whose manifestations of so much zeal for the promotion and welfare of the fraternity and formation of the Lodge over which he presided so faithfully and acceptably merited for him the confidence and good will of all Masons within his acquaintance, and by the death of whom the fond affections of a devoted husband and indulgent father have been severed—

Resolved, That it is with feelings of no ordinary sorrow that we meet to pay this last tribute of respect to him who, on the 28th day of August, 1869, at his residence in LaGrange, was summoned from his career of usefulness on earth to that celestial Lodge where the Supreme Architect of the universe presides.

Resolved, That we mourn the loss of him at the sound of whose gavel we have so often been called from labor to refreshment.

Resolved, That in the death of Bro. Whitfield our entire community has been bereft of a most useful citizen, society of an honest member, and the Masonic fraternity of a most zealous advocate.

Resolved, That, as "it is appointed unto all men once to die," we submissively bow to the will of Him who doeth all things well.

Resolved, That we tender to the family of our deceased brother our heartfelt sympathies, and admonish them that he who was mortal but has now put on immortality, is in the hands of a merciful Saviour, who loved him and who is the guardian of the orphan and widow.

Resolved, That these resolutions be entered on the records of the Lodge, a copy be sent to the family of our deceased brother and also a copy forwarded to the Raleigh Sentinel, Wilmington Journal and Journal of Commerce for publication.

YARBOROUGH HOUSE,
RALEIGH, N. C.
OFFICE NO. 13, FIRST FLOOR.

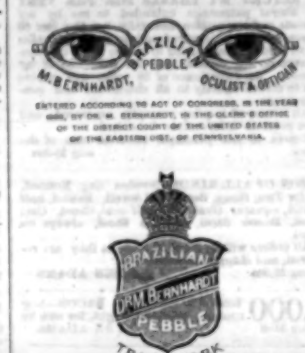
Entered according to act of Congress in the year 1867, by MORRIS BERNHARDT, in the Clerk's Office of the District Court of the United States, for the Middle District of Alabama.

MORRIS BERNHARDT,

OPTICIAN,

OF BERLIN, PRUSSIA.

Recently of New York, offers those who are suffering from weak and defective sight, his



AND

AUSTRALIAN
CRYSTAL
TRADE MARK.

GLASS SPECTACLES,

Superior to any other in use—constructed in accordance with the science and philosophy of nature, in the peculiar form of

A CONCAVE-CONVEX ELLIPSIS,

Admirably adapted to the organs of sight, and perfectly natural to the eye, affording altogether the best artificial help to the human vision ever invented. Used only by

MORRIS BERNHARDT,
SPECTACLE & OPTICAL MANUFACTURER.

THE ADVANTAGES of these Spectacles over all others are:

1. They can be worn with perfect ease for any length of time at one sitting, giving astonishing clearness of vision, by candle or any other artificial light, comfort to the spectacle-wearer hitherto unknown.

2. How to select Glasses. It requires professional guidance even when a good article is offered. Dr. Bernhardt not only has the best Glasses that can be found in the market, but carefully examines the eyes of his patients, and gives indispensable advice as to the proper selection of them.

3. When the eyes ache or pain through the action of a bright light, such as is reflected from the snow, sunny weather, white paper, and in reading, writing or sewing, or vivid colored bodies; these lenses, by softening the rays, effect a most agreeable sensation and give great relief.

4. These spectacles are scientifically adjusted to every case of defective sight with unerring accuracy, whether arising from age, strain, over work, or premature decay, by Dr. Bernhardt on a new and exact principle, entirely his own, which has seldom failed to be correct.

5. After several years of public practice, adjusting spectacles to patients under every species of defective vision, as well as experience in an extensive, long established business in his Optical Stores, both here and in Europe, Dr. Bernhardt considers it a sufficient guarantee of his ability to supply such glasses as are best calculated for the assistance of imperfect sight.

6. M. Bernhardt, to signalize himself from the host of pretenders in his profession, with pride submits for inspection, copies of testimonials he has received from medical gentlemen of the most unques tionable respectability and talent in America; also a number of certificates from well known gentlemen of distinction who have used his spectacles—the originals of all which he will be happy to show to those who may request it. The use of any of the following names of certificates hereunto affixed, without an actual possession of the same, would be a forgery, a capital offence, punishable by State imprisonment.

Testimony of Recommendations from Medical Gentlemen, Professors of the highest Opthalmic talent in Raleigh, N. C., and in the Union

Raleigh, Aug. 24, 1869.

I have carefully examined Prof. Bernhardt's Spectacles and take great pleasure in recommending him to those who, having defective vision, can be made to see more clearly and distinctly by the use of glasses. He has wonderful skill in this respect. The pair he has supplied me with are of Brazilian Pebble, of most superior quality and excellent finish. They enable me to see how to read or write, at the ordinary focal distance, as clearly and distinctly as I did twenty years ago. I very cheerfully bear testimony both to the Professor's skill and to the wonderful properties of his glasses.

CHAS. E. JOHNSON, M. D.

Raleigh, N. C., Aug. 24, 1869.

I take great pleasure in saying that the Glasses I have obtained (and am now using) from Dr. M. Bernhart are to me a source of greater comfort than any I have previously used; my own experience fully sustaining the testimonials of excellence and commendation which he has received from gentlemen of science, and high character, in various parts of our country.

WM. G. HILL, M. D.

Raleigh, N. C., Aug 24, 1869.

I take pleasure in stating that I have examined the glasses of M. Bernhardt, Oculist and Optician, and think they are of the best material, and constructed on scientific principles. I would advise those in need of glasses to call on him.

Very respectfully
F. J. HAYWOOD, M. D.

Raleigh, Aug. 24, 1869.

Doctor Bernhardt called at my house and exhibited to me his fine assortment of Australian Crystal Glasses, which are of a very superior quality and workmanship. I take pleasure in saying that the glasses I have obtained from Professor Bernhardt are to me a source of greater comfort than any I have previously worn and cheerfully commend them to those who may be in need of glasses.

W. H. McKEE, M. D.

Raleigh, Aug 25, 1869.

After an attentive examination of the various glasses in the possession of Dr. M. Bernhardt, accompanied with his explanation of his mode of preparing and adjusting them, it is with great pleasure I state my belief of his great skill, and of the benefit which those needing glasses must derive from his assistance.

R. S. MASON, D. D.,
Pastor Prot. Episcopal Church.

Raleigh, Aug 25, 1869.

Dr. M. Bernhardt, Oculist and Optician, has fitted me with a pair of Spectacles superior to any article of the kind I ever had before. The material is Australian Crystal, the quality of which renders vision very clear and distinct, and enables me to read and write with as much ease as I did ten or twelve years ago. His assortment of glasses is most complete and the finish apparently perfect. I take great pleasure in recommending him to all who need their sight improved.

DRURY LACY, D. D.,
Late Pres't. of Davidson College, N. C.

Raleigh, Aug. 26, 1869.

It gives me pleasure to bear witness to the extraordinary value and excellence of the glasses prepared and furnished by Prof. Bernhardt. To those who need artificial aid for their vision he will be of the highest service.

J. M. ATKINSON,
Pastor of the Presbyterian Church.

State of North Carolina,
EXECUTIVE DEPARTMENT,
Raleigh, March 29, 1866.

I have examined a large number of the glasses of Prof. M. Bernhardt, and with pleasure certify to their superior excellence. I wear a pair of them and see as perfectly as I could in my youth. They are the best I ever used, and I therefore heartily recommend him to the patronage of the public.

JONATHAN WORTH,
Governor of North Carolina.

State of South Carolina,
EXECUTIVE DEPARTMENT,
Columbia, June 19th, 1868.

SIR: I have made a full and satisfactory test of the Spectacles procured from you, and I have the pleasure to say that the glasses are better adapted to my eyes than any I have ever used. The faculty with which you fitted the glasses to my eyes, furnished me conclusive evidence of your scientific skill in optics and your thorough experience as an Oculist.

Your attainments in your profession entitle you to the confidence, patronage and gratitude of the public. I have the honor to be,

Very respectfully yours,
JAMES L. ORR,
Governor of South Carolina.

Prof. MORRIS BERNHARDT, Charleston, S. C.

Wilmington, March 31, 1866.

I have examined a number of Professor Bernhardt's Glasses and am now using a pair of them, and take pleasure in testifying that they enable me to see better than any others that I have used, while in his collection there seem to be some adapted to remedy any kind of defect in vision.

THOMAS ATKINSON,
Bishop of North Carolina.

Nashville, April 27, 1867.

The difference between Dr. Bernhardt and most Opticians is, according to my observation, that while they pretend to more than they know, he knows more of his business than he professes.

W. K. BOWLING, M. D.

Testimonials similar to the above may be seen at Dr. Bernhardt's office, from the most reliable and well-known gentlemen of the United States, among whom are:

HORATIO SEYMOUR, Governor of New York.

OFFICE HOURS FROM 9 A. M. TO 6 P. M.

CONSULTATION FREE,
YARBOROUGH HOUSE.

N. B.—Owing to engagements elsewhere, Dr. Bernhardt will be able to remain here only a short time.

I EMPLOY NO PEDLARS.

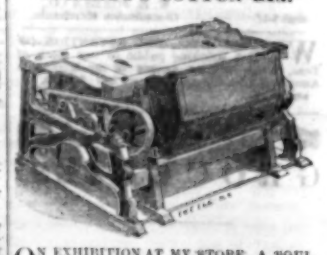
GULLETT'S COTTON GIN.



ON EXHIBITION AT MY STORE, A "GULLETT'S STEEL BRUSH GIN."

The Gin is of a very superior style of workmanship, gins more Cotton in a given time than any Gin of the same number of saws; picks the seed cleaner; leaves no motes or nap; does not waste the lint by throwing it over the walls of the room where it is being ginned; does not cut the lint, but brings it out in beautiful bats.

Planters desiring Gins would do well to buy one of Gullett's, as each one is guaranteed, and if it does not have the advantages over other Gins, named in this advertisement, after fair trial, it will be no sale.

The "Gullett Gin" has been awarded the Premium at the several STATE FAIRS of Louisiana, Alabama and Mississippi.

I am Agent for the sale and would be pleased to fill orders.

G. T. STRONACH,

THE weather at Raleigh, N. C., as indicated by the Thermometer at the office of the North Carolina Land Company, Tucker Hall, September 16th:

9 A. M., 72. 3 P. M., 80.
12 M., 76.

DISAGREEABLE.—"Dust thou art, and unto dust thou shalt return," is the immutable decree, and we are constantly reminded of it by the clouds of dust in the streets, raised by equestrians, pedestrians and all other sorts of peregrinators. A shower would afford great relief in this behalf.

PERSONAL.—Among the arrivals yesterday, at the Yarborough House, we noticed on the register the names of Messrs. H. K. Nash and J. H. Jones, of Orange, and W. G. Morrissey, of Wayne.

ST. AUGUSTINE NORMAL SCHOOL.—This School is located near the city, and is designed for the education of colored teachers, and will be open on Wednesday, September 29th. Applicants must be able to read and write and understand the four primary rules of Arithmetic. Tuition and the use of books will be free to all, but pupils, who are able, will be required to pay their board, in whole or in part. Aid will be given towards board in special cases.—Application, stating age, qualification and pecuniary ability, should be made to Rev. J. Brinton Smith, Principal.

"OFFICIAL REGISTER."—M. S. Littlefield is the State Printer. He prints the laws and journals of the Legislature; at least it is understood that he will do so, at some time or other. He has already commenced printing, we judge, from the fact that a "blurred" sheet containing the title page and some introductory sections, have found its way to our office, accidentally. We have no fault to find of the appearance of the job, it looks very well; but there are some funny things in some of the pages, and for the purpose of speaking of these, we have introduced the subject.

One of the Chapters of this "advance sheet" purports to be an "Official Register" for 1869, giving the State officials in full in all the Departments. In the legislative branch we find the following, a list of members of the House of Comons, their counties, names, and places of residence:

Pitt { Byron Laflin, Raleigh, Wake Co.
{ R. H. Hilliard, Battleboro'.
Union, Hugh Downing, (care G.W. Plow,) Monroe.
Lenoir, Wallace Ames, Morganton, Burke County.

This is a queer exhibit. The senior Representative hails from Burke, one of the Pitt Representatives resides in Raleigh, the other in Battleboro, while 'Sleepy Downing' has his residence at Monroe, care of G. W. Plowa."

Such exhibits—such *official* exhibits of the state of affairs in our good old commonwealth, "printed by authority," are sent out to the world, and the "handed down to do archives of grabit!"

CAPE FEAR AGRICULTURAL ASSOCIATION.—We have been shown by M. J. H. Engelhard, Secretary of the Executive Committee, of the Cape Fear Agricultural Association, the premium list for the first annual Fair, to be held in November, beginning on the 16th., and continuing for four days. This list is full and the premiums liberal. The Committees comprise the leading agriculturalists and business men of the Southeastern counties of the State and the neighboring counties of South Carolina. These lists can be seen posted at the Hotels and stores of the city.

We learn from the *Journal* that the Exhibition Hall, a large and imposing three story building is being rapidly completed, and the track is near finished. Their grounds comprise one hundred and thirty acres, and we feel sure that under the direction of Col. Fremont and the Executive Committee, the Cape Fe Agricultural Association will be a blessg to that section of the State. Coming on after the State Fair in be held next month near this city, we desire to call the attion of our people to it, especially the who secure premiums for their articles It would be quite a triumph to bear off a palm among new competitors at the Fa of the Cape Fear Agricultural Associati.

COME AND SEE!—Sunday morning will find Ben. Kirkham at his usual stand, (near the old Market House with a choice lot of Beef and Lamb. Abrase his meat, who buy of Kirkham. H "eats," to-morrow, will be No. 1.

The Tarboro' *Southerner* says that certain pack peddling Purits are selling to the "Nation's Wards" that section, at 10 cents a copy, a letter purporting to have been written by ourord and Savior Jesus Christ.

METHODIST SUNDAY SCHOOL CONVENTION.—Pursuant to previous notice, the Delegates to the Sunday School Convention of the M. E. Church, South, met at the Methodist Church in this city, yesterday, (Thursday,) at 10 o'clock, A. M., and the session opened by religious exercises, conducted by Rev. James Reid.

The Convention was temporarily organized by calling Rev. James Reid to the Chair, and the appointment of R. W. Best, Esq., Secretary.

The following Delegates were found to be present: Revs. L. L. Hendren, H. T. Hudson, Wm. E. Pell, J. B. Bobbitt, W. H. Cunninggim, J. J. Carden, R. H. Whitaker, S. R. Trawick, W. J. Young, Esq., Revs. W. J. W. Crowder, J. A. Cunningim, W. R. Raven, James Reid, Edward Howlin, Thos Bailey, Esq., James H. Moore, Esq., Revs. W. H. Bobbitt, A. W. Mangum, W. M. Robie, S. W. Crawford, Dr. O. Hooker, Revs. W. C. Gannon, E. A. Yates, John C. Slocum, Esq., William Hay, Esq., Rev. J. S. Midyett, D. Lane, Esq.

After enrolling the names of delegates, it was resolved, on motion of Rev. Wm. E. Pell, that all other brethren present, identified with the interest of Sunday Schools, be requested to take seats as Delegates.

Under this resolution the following names were added: R. F. Webb, Esq, J. H. Watson, L. H. Gibbons, R. W. Best, and S. H. Bobbitt.

A Resolution was adopted to appoint a committee of five, (afterwards raised to seven,) to report a form of Constitution and By-Laws, for a permanent organization of the Sunday School Society, and to report nominations for permanent officers. The following constitute the Committee: Rev. J. A. Cunninggim, Rev. A. W. Mangum, Dr. O. Hooker, Rev. W. M. Robie, J. C. Slocumb, Esq., Rev. H. T. Hudson and Rev. W. C. Gannon.

The Convention then took a recess until 4 o'clock, P. M.

AFTERNOON SESSION.

The Convention re assembled, pursuant to adjournment.

The Committee appointed at the morning session on permanent organization, reported:

For permanent Chairman, Rev. James Reid, and

For permanent Secretary, R. W. Best, Esq.

These nominations were confirmed by the Convention.

The Committee also reported a Constitution for the North Carolina Sunday School Society of the M. E. Church, South.

This was, on motion, taken up by articles for consideration. The 1st, 2nd and 3rd, were adopted. While the 4th was under discussion,

On motion the Convention adjourned to 9 o'clock this (Friday) morning.

Rev. N. F. Reid, who was expected to preach last night, was prevented by sickness, from coming, and the hour was occupied by Rev. A. W. Mangum, who discussed the subject of "early conversions," in his usual masterly, perspicuous and eloquent style.

This (Friday) evening, at the M. E. Church, there will be a general discussion of the subject of Sunday Schools, and an interesting time may be expected.

MAYOR'S COURT.—Isham Brewer was up before His Honor, Mayor Harrison, Thursday morning, to answer the charge of stealing $75 00 from Jacob Stone; both colored. It appeared in the examination of the case that the parties, with several others occupied, at night, a tent used by the hands working on the Chatham Railroad. On Wednesday night Brewer slept next to Jones, and in the morning the latter missed his money, which he kept in a pocket of his drawers. The evidence pointed so strongly to Brewer as the thief, that His Honor required him to give bail in the sum of $200, to answer at Court; failing in which, he was sent to jail.

James Hinton and Thomas Williams, two colored boys were hauled up for stealing a pair of shoes from Mr. Thomas, living near the N. C. Depot. The evidence was conclusive and they were sent to jail in default of $100 bail each for his appearance at next term of the Superior Court.

The Conservative white men of Washington Township, Beaufort county are making arrangements to give an entertainment to the colored Conservative voters of the Townsaip at an early day. So says the *Intelligencer*.

The Newbern *Journal of Commerce* rejoices in the fact that a colored woman, living in that city recently gave birth to triplets.

BROOKLYN LIFE INSURANCE CO.—The following letter speaks for itself:

McDOWELL Co., N. C., Aug. 20, 1869.

CAPT. A. W. LAWRENCE,
General Agent for North Carolina,
Of the Brooklyn Life Ins. Co.:

SIR:—I hereby acknowledge the receipt from you, through Rev. J. R. Griffith, your Agent for this section, of the amount of my deceased husband's Policy in the Company which you represent, viz: $2,000.

I am induced, Sir, by a two-fold consideration, to grant you permission to make public this acknowledgment.

In the first place, I wish to bear testimony to the advantages of Life Insurance, thus practically illustrated.

In the second place, I wish to bear cheerful and grateful testimony to the prompt and unreserved fidelity with which, in my case, your excellent Company has discharged its obligation.

I am, Sir, very respectfully yours,
dawAw2t ZILLAH MURPHY.

The last ball of the season was given at the Atlantic House, Beaufort, on Thursday evening last.

Newbern is still exercised over the project of a bridge over Neuse River.

We see from the Wilmington *Journal* that the New Hanover Medical Society convened on Wednesday evening last and elected the following officers:

President—S. S. Satchwell, M. D.
Vice President—F. W. Potter, M. D.
Secretary and Treasurer—W. J. H. Bellamy, M. D.

MARRIED,

In Wake County, on the 15th inst., by Rev. J. L. Carroll, Dr. A. J. Darby to Miss Nannie H. O. Johns, all of Wake Co.

In Warrenton, N. C., on the 9th inst., by Rev. M. M. Marshall, John H Gayle, of Portsmouth, Va., to Miss Cora E. Wilcox, of Warrenton, N. C.

DIED,

In this City, on the evening of the 15th inst., at half past 7 o'clock, the infant son of Col. J. F. H. and E. A. Rose.

Raleigh, Sept 15-d1w RICHARD BROWN.

Morning Edition.

TELEGRAPHIC.

Thursday Evening Dispatches.

WASHINGTON.

WASHINGTON, Sept. 16.—Gen. Reynolds telegraphed Sherman that the State Constitution provides only one precinct in a county, and that the counties are so large that voters from a distance will not have time to reach the polling place in one day. He (Reynolds) asked for an extension of the time.

Sherman telegraphed Grant at Pittsburg, Penn., stating the substance of the above; Grant replied that if any provision of the reconstruction acts allows any extension, to do so. Sherman, on examination found authority to extend the time to four days, and telegraphed an order to that effect to Reynolds last night.

Mississippi has not asked for an extension of time yet. If Gen. Ames finds any difficulty in that State, and asks the same favor for her citizens, there is no reason for doubting that it will be extended.

The best advised Cubans here discredit the accounts of the great battle in the vicinity of Las Tunas, though quite heavy skirmishes may have taken place. Geographical incongruities read of the presence there of both Quesada and Crespedes improbable. The solution of the hoax seems to be that the Spaniards invented the victory at Havana, and the Cubans sympathizers here invented the plausible counterblast.

Albert Nichols (negro) killed his wife and mother-in-law, to-day, with a hatchet. Nichols claims that he acted in self defence.

FROM BOSTON.

BOSTON Sept. 16.—Twenty-six Cuban filibusters were captured off New Bedford, and imprisoned in default of bail, ranging from two thousand to five thousand. George Brown and Henry Heart were leaders of the expedition.

PENNSYLVANIA.

PHILADELPHIA Sept. 16.—The National Pomological Society met to-day. Twenty-two States are represented. It was determined to hold the next annual meeting at Richmond, Va.

FOREIGN.

DUBLIN, Sept. 16.—There was a full attendance upon the Irish Church Synod, and a protest against disestablishment was unanimously adopted.

PARIS, Sept. 16.—The Emperor's health is restored; he presides at the Ministerial Councils. Prim considers a Cuban consultation with the Emperor as satisfactory, and returns to Madrid on Saturday.

The Czar forbids Russian Bishops from attending the Ecumenical Council.

MARKETS.

NEW YORK, Sept. 16.—Stocks weak and unsettled; Money steady at 6 to 7; Sterling long at 84; short 8½; Gold 36½; 6-2s, 52; Tennn. ex-coupon 55, new 58; Lou. old 70; Levees 65½, 8s, 84½, Ala. 8s, 92, 5s, 62; Georgias 6s, 85, 7s, 90; N. Car. old 55, new 47; S. Cs. new 67.

Flour favors buyers; Wheat unchanged; Corn 1 cent better; Pork dull; Cotton drooping at 30; Turpentine 43½; Rosin quiet, common to good strained 2,35 to 2,37½; Freights firm.

LONDON, Sept. 16.—Bonds 83; Sugar quiet.—Both on spot and afloat.

LIVERPOOL, Sept. 16.—Cotton dull; Uplands 12; Orleans 12½; Sales 5,000 bales. Red Western Wheat 9 to 10; Corn 30. Afternoon.—Cotton, a shade firmer; sales will reach 7,000.

Thursday Midnight Dispatches.

WASHINGTON.

WASHINGTON, Sept. 16.—The Texas election commences on the 30th of November and continues until the 4th of December; the people will vote only at the Court Houses of the various counties.

High authority re-asserts Executive impartiality between the contending parties and says Gen. Clarke is neither as accurate nor as reticent as he might be.

Fish interviewed the Cuban representatives, Lemus and Ruiz, yesterday.

The cotton tax is again mooted.

The financial statement of the fiscal year, ending June 30th, shows nearly $50,000,000 in excess.

Customs from the 4th to the 11th, inclusive, nearly $5,000,000.

VIRGINIA.

RED SWEET SPRINGS, Sept. 16.—There are one hundred visitors here, among them is Secretary Conrad.

The White Sulphur Springs has not been sold to northern capitalists; the lease of the present Proprietors has three years to run.

OHIO.

CINCINNATI, Sept. 16.—The Evansville and Cairo packet "Phantom" exploded, killing five or six and hurting many.

FOREIGN.

MADRID, Sept. 16.—Two iron clads have been ordered to Cuba. Three thousand men have left and seven thousand more will follow this week.

PARIS, Sept. 16.—Bullion decreased 4,000,000 francs.

Prim has another interview with the Emperor to-morrow.

MADRID, Sept. 16.—Prim telegraphs the government from Paris advising diligence in sending troops to Cuba.

LONDON, Sept. 16.—Storms continue; much rain.

The "Times" has an editorial on Sickles' note, saying, "No doubt the alternative is offered to Spain, of the abandonment of Cuba or American recognition of the insurgents which will render the struggle hopeless so far as Spain is concerned. But the the Government (Spain) cannot control the impulses of the people. The pride of the Spanish people is fast kindling and the Government in striving to check it would greatly injure itself. From the most tranquil Provinces come offers of men and arms, in order that regulars may go from Cuba. The aggressive policy of the United States cannot be justified by the attitude of Spain towards Cuba.

MARKETS.

NEW YORK, Sept. 16.—Cotton heavy, sales 2,300, at 30; Flour, old steady, new dull and declining; Superfine State 5,90 to 6,20, Common to fair extra Southern 6,50 to 6,85; Wheat active prices unchanged; Corn fairly active 2 to 3 better, mixed Western 1,13 to 1,17; Pork firmer fair demand 30¾; Lard heavy, Kettle 19 to 19½; Whisky decidedly lower 1,20; Rice dull. Cuba-ines 8 to 9; Sugar and Coffee firm; Naval Stores steady; Freights firm.

Money active, 7; Sterling dull, long 8, short 8½; Gold 136½; Governments heavy; 6's 21½ to 22; Southerns dull; N. Cs. declined, 51½.

BALTIMORE, Sept. 16.—Cotton nominally, 29 to 30; Flour quiet and steady; Wheat weak, but prices unchanged, prime to choice red 5,10 to 6,00; Corn firm, White 35 to 38; Yellow 34 to 35; Oats 58 to 60; Rye 14; Pork quiet; Bacon active; Whisky 1,26, buyers holding off.

WILMINGTON, Sept. 16.—Spirits of Turpentine 39½; Rosin steady at 1,50 to 2,50; Crude Turpentine unchanged.

LONDON, Sept. 16.—Consols 92½. Bonds 83.

LIVERPOOL, Sept. 16.—Cotton closed a shade firmer. Uplands 13 Orleans 13½ Sales 8,000 bales. Speculation and export 4 000

Formidable opposition is concentrating against Andrew Johnson, rendering his election to the Senate very uncertain.

The depot of the St. Paul and Sioux Railroad at Ottawa, Minn., was struck by lightning on Sunday and burned, together with its contents.

The largest tannery in the world is at Kane, Pa. It is not yet finished, but has 600 vats in operation and consumes 15,000 tons of hemlock bark per year.

It is stated that the real and personal property of the city of Brooklyn has increased in value since 1868 $46,000,192.

The Gettysburg Battlefield Memorial Association is preparing a reply to the assault by the press upon the proceedings attending the ind cation of positions of troops, &c., on the battlefield.

Water runs over Niagara Falls at the rate of 1,500,000,000,000 cubit feet every minute, giving a water power sufficient to perform all the manual labor in the State of New York.

Mr. John Tyler, Jr., publishes a card in the Washington Evening Express of Saturday, denying a charge that he had been sent to Providence Hospital to be treated for drunkenness.

A monument to William Penn, at the corner of Broad and Market streets, Philadelphia, is suggested by the citizens of that city.

THE UTLEY
COTTON PRESS.

A NEW combination of power, whereby all friction is overcome. The simplicity, economy and durability of this Press astonishes all who see it, and the more so that a power so simple should so long have been unappropriated. With this Press two men can do all the packing or pressing of a 500 pound bale inside of eight minutes: and it can be readily taken down and transported, as it is simple and light. We can supply these Presses cheaper than any yet offered to the Planter. Will send circulars to any desiring, and we would advise all persons wanting presses to withhold buying until they examine this.

THE PRESSES are now being manufactured at the SASH AND BLIND FACTORY OF THOS. H. BRIGGS. All are assured that as between this and any other there is no argument as to its merits over all others. With the irons, any ordinary workman can put them up. The patentee is here for a few days, and will take pleasure in explaining its merits.
Address T. H. BRIGGS
sept 16-tf Raleigh.

Special Notices.

Pretty Women. A comparatively few Ladies monopolize the Beauty as well as the attention of Society. This ought not to be so, but it is; and will be while men are foolish and single out pretty faces for companions.

This can all be changed by using Hagan's Magnolia Balm, which gives the Reserved Youth and a refined sparkling Beauty to the Complexion, pleasing powerful and natural.

No lady need complain of a red, tanned, freckled or rustic Complexion who will invest seventy-five cents in Hagan's Magnolia Balm. Its effects are truly wonderful. To Preserve and Dress the Hair use Lyon's Kathairon. aug. 28, 1m

☞ PHILOSOPHY OF MARRIAGE.—A NEW COURSE OF LECTURES, as delivered at the New York Museum of Anatomy, embracing the subjects: How to Live and What to Live for; Youth, Maturity and Old Age; Manhood Generally Reviewed; The Cause of Indigestion; Flatulence and Nervous Diseases accounted for; Marriage Philosophically Considered, &c. These lectures will be forwarded on receipt of four stamps by addressing:—SECT BALTIMORE MUSEUM OF ANATOMY, 74 WEST BALTIMORE STREET, BALTIMORE, MD.

" 51,136	2,000
" 14,598	10,000
" 40,266	5,000
" 42,975	5,000
" 22,301	15,00

And $5,000 ready to pay a loss of No. 34,161, so soon as the party authorized to receive the money appears.

The Company has been well tested throughout the State, as to its promptness in paying her losers, reliability, &c.

DIVIDENDS PAID AT THE END OF THE FIRST YEAR, AND ANNUALLY THEREAFTER.

Its ratio of expense to income is extremely low. This may be seen by reference to the Official Reports for 1869. For example:

EXPENSE ON THE $100 RECEIVED.

KNICKERBOCKER,	$16,54
EQUITABLE,	17,44
NORTH AMERICA,	21,16
BROOKLYN,	21,09
UNIVERSAL,	27,94
JOHN HANCOCK,	18,27
THE NATIONAL,	65,48
THE ÆTNA,	13,61

It has an IMPORTANT NEW FEATURE that has been copyrighted. According to this plan the rates are MUCH LOWER than in any other Company in the world.

Its ratio of Mortality is low. Its rates are very low. Its expenses are very low. Its dividends are large.

It insured more lives in the City of New York in 1868 than any other Company, except one. It insured more Policies in the United States than any other save one. It insured more lives in Canada than any other Company, British or American.

See what the HIGHEST INSURANCE AUTHORITY in this country says. In the June number of the *Insurance Times*, of New York, the following opinion was expressed:

"If there is any great benefit in mutual association, any great advantage to be derived from scientific organization and a chartered source, tending to mitigate the sufferings, lessen the privations, and add to the peace, security, and happiness of humanity, we are prepared to show that these blessings flow, in all their fullness and purity, from this excellent, powerful, and flourishing Company, the ÆTNA LIFE, of Hartford."

"No institution has brought more prompt full, and grateful relief to the hearths of the bereaved and desolate, and none has been more uniformly distinguished for the enterprise, wisdom, and equitable liberality with which it has fulfilled the purposes of its formation."

"Its success has been almost unbounded and beyond all precedent. Eight years ago, in 1861, it issued only 389 policies, received an income of seventy-eight thousand dollars, and possessed net assets amounting up to something over two hundred and eighty-one thousand dollars; last year, 1868, it granted 13 327 new policies, more than any other Company, except the Mutual Life, created an income exceeding six million dollars, and had amassed solid, securely and profitably invested nett assets amounting to over Ten Million Three Hundred and Fifty Thousand Dollars. And this wonderful ratio of growth has been sustained in 1869."

THE STEVENS FLOATING BATTERY.

Original Design of the Battery in 1840—Changes in Dimensions, Armor and Armament—Amount expended at the Commencement of the War—Progress of Operations Under Charge of Gen. McClellan.

During the year 1840 the defenceless condition of New York harbor attracted the attention of the citizens of this city and the country at large. The forts which now loom up at the Narrows were then but little calculated to resist the attack of an enemy's fleet, and had a war then occurred, this city, with its vast wealth, would have doubtless been at the mercy of great naval power, such as England and France. Forts Richmond, Hamilton and Lafayett were then in their infancy. At this time Mr. Edwin Stevens, a prominent and wealthy citizen of Hoboken, conceived the idea of having built at his own expense an iron-clad floating battery, capable of resisting the attack of an ordinary fleet. With this object in view he consulted some of the most experienced and widely known engineers in the country, and in the latter part of the year 1840 the work on the marine monster was commenced. The keel was laid at the present yards in Hoboken and secrecy was enjoined upon engineers and workmen not to divulge the object of their employment.—The battery at first was intended to be only 150 feet in length, with an iron plating of one and a half inches in thickness all over; the armament was to have been composed of ten guns, five on a broadside, each throwing a solid shot of 100 pounds, considered at that day to be enormous.

The work progressed until the beginning of the late war, but only ten men were engaged by the managers, and they simply to keep watch and ward over the unwieldy looking mass of iron and wood. In 1862, however, the near approach to the harbor of this rebel "Alabama" and the miserable condition of our wooden navy, lent new life to the enterprise, and additional workmen were immediately set to work on the vessel, which, up to that time, had involved an expense of $800,000 to Mr. Stevens. The work steadily progressed under the old plans, but the naval battle between the Monitor and the Merrimac, in Hampton Roads, brought about a revolution in the construction of iron clads, and the plans were revised; the iron sheeting was torn off and plates of two and a quarter inches in thickness were substituted, 50 feet added to its length, and the battery which she was at first intended to carry was decreased to five guns instead of ten—they to be of the fifteen inch pattern. Numerous officers connected with the navies of England and France have in vain applied for admittance, the original programme being carried out to the letter.

Since the close of the war the work was again suspended, but General McClellan, while in Europe, was offered the position of chief engineer in its construction by the heirs of Mr. Stevens, at a salary of $10,000, which he accepted, and upon taking his position it was again decided to make several important alterations. One hundred and eighty men are at present employed at work, and when completed, which will be during the year 1871, the battery will be one of the most formidable engines of naval warfare afloat. Those who have visited the iron clads of Russia, England and other European nations, and have examined the plans of this monster, state that it can cope with ease, with an entire fleet. The name which it is to bear has not yet been decided. When completed it will be formally presented to the State of New Jersey.—*N. Y. Herald.*

A CURIOUS STORY OF LOUIS NAPOLEON.

A newspaper published at Lyons, France, called the *Salut Public*, gives the following extraordinary remarks, said to have been made by Louis Napoleon to an intimate American friend soon after the close of the Italian war:

The Prince Imperial had only just recovered from a serious illness, and his Majesty, still under the impression of his past fears, said to his old friend, "If I had had the misfortune to lose my son, and all hope of an heir in a direct line were denied me, I should have put into execution an extraordinary project. . . . I should have given to France the privileges, the liberties, the manners of a Republic. I should have wished to be looked upon as the first citizen of my country, after having given back to it those liberties which political necessity has obliged me to take away for a time; in a word, I should have rendered impossible after my death any other form of government than that of a republic—the only one which wisely understood and applied with energy, can suit France. But I must give up this dream; a father of a family must not burn his son's roof over his head, and I must try and conciliate two elements which now seem utterly irreconcilable—the empire and liberty. My heir shall reign, and France shall only lose a name—the name of republic. She will soon have, I hope, all the liberal institutions that I have so much admired in the new world."

A BRIDAL PAIR IN A BATHROOM.—Cora Mowatt who is writing foreign letters for the San Francisco *Chronicle*, tells a story of a bridal pair, making the tour of Switzerland, who recently came to a crowded hotel and were informed by the landlord that there was one unoccupied room in the house, the bathroom, and that a couple of beds might be made in the two baths which it contained. The youthful couple were well pleased to secure even this shelter after a fatiguing journey, and retired to rest.—An hour or two later the stillness of the night was suddenly broken by shrieks of distress issuing from the bathroom. The lady, wishing to summon a servant, had pulled what she presumed was a bell rope suspended over her bed in the bath, when suddenly she was inundated by a shower of cold water. The gentleman, roused by her cries, and not quite comprehending the position, pulled a supposed bell rope which he felt dangling over his bath bed, to bring him a domestic, but brought instead a shower of hot water over himself. It was quite dark and neither bride nor bridegroom could grope their way to the door. By the time succor came they were up to their knees in water.

SELLING OFF AT COST!

In order to make room for my Fall Stock of Goods, I propose to sell the following Goods at cost, for thirty days only, commencing Monday, August the 9th inst., consisting in part of

Koskoo!

THE GREAT REPUTATION

Which KOSKOO has attained in all parts of the Country

AS A GREAT AND GOOD MEDICINE,

has induced Dr. LAWRENCE to ENLARGE HIS LABORATORY and FACILITIES for MANUFACTURING, so as to be enabled to supply the extraordinary demand for it.

THE LARGE NUMBER OF TESTIMONIALS which are constantly being received from Physicians, and persons WHO HAVE BEEN CURED by its use, is CONCLUSIVE PROOF of its REMARKABLE VALUE.

As a BLOOD PURIFIER it HAS NO EQUAL,

BEING POSITIVELY THE

Most Powerful Vegetable Alterative

YET DISCOVERED!

DISEASES OF THE BLOOD.

"The life of the flesh is in the Blood," is a Scriptural maxim that science proves to be true. The people talk of bad blood, as the cause of many diseases, and like many popular opinions, this of bad blood is founded in truth. To say nothing of those humors that are hereditary, we can easily see how the Blood may become bad from imperfect Digestion or failure of excretion, and how this may influence the process of Nutrition, and thus influence all the functional activities of the body.

The symptoms of bad blood are usually quite plain—bad Digestion—causes imperfect nutrition, and consequently the circulation is feeble, the soft tissues lose their tone and elasticity, and the tongue becomes pale, broad, and frequently covered with a pasty, white coat. This condition soon shows itself in roughness of the skin, then in ERUPTIVE and ULCERATIVE diseases, and when long continued, results in serious lesions of the Brain, Liver, Lungs, or urinary apparatus. Much, very much, suffering is caused by impure blood. It is estimated by some that one-fifth of the human family are affected with scrofula in some form.

Persons suffering from any bad humor are very liable to have it settle on the Lungs or some other vital organ. The only safe rule is to remove the Blood poison at once, before it settles itself upon some vital point.

When the Blood is pure, you are not so liable to any disease. Many impurities of the Blood arise from impure diseases of large cities. Eradicate every impurity from the fountain of life, and good spirits, fair skin and vital strength will return to you.

KOSKOO!

AS A

LIVER INVIGORATOR!

STANDS UNRIVALLED.

BEING THE ONLY KNOWN MEDICINE that EFFICIENTLY *stimulates* and CORRECTS the *hepatic secretions* and functional DERANGEMENTS of the LIVER, without debilitating the system. While it acts purely upon the Liver instead of CATHARTIC PURGING, it gradually changes the discharges to a PERFECTLY NATURAL STATE.

SYMPTOMS OF LIVER COMPLAINT AND OF SOME OF THOSE DISEASES PRODUCED BY IT.

A sallow or yellow color of the skin, or yellowish-brown spots on the face and other parts of the body; Dullness and drowsiness, sometimes headache; bitter or bad taste in the mouth, internal heat; in many cases a dry teasing cough; unsteady appetite; sometimes sour stomach, with a raising of the food; a bloated or full feeling about the stomach and sides; aggravating pains in the sides, back, or breast, and about the shoulders; constipation of the bowels; piles, flatulence, coldness of the extremities, &c.

KOSKOO!

Is a remedy of WONDERFUL EFFICACY in the cure of diseases of the KIDNEYS and BLADDER. In these affections it is as near A SPECIFIC as ANY remedy can be. It does its work KINDLY, SPEEDILY, and SURELY. The RELIEF which it affords is both CERTAIN and PERCEPTIBLE.

DISEASES OF THE KIDNEYS AND BLADDER.

Persons unacquainted with the structure and functions of the Kidneys cannot estimate the IMPORTANCE of their healthy action.

Regular and sufficient action of the Kidneys is as important, nay, even more so, than regularity of the bowels. The Kidneys remove from the Blood those effete matters which, if permitted to remain, would speedily destroy life. A total suspension of the urinary discharges will occasion death from thirty-six to forty-eight hours.

When the Urine is voided in small quantities at the time, or when there is a disposition to Urinate more frequently than natural, or when the Urine is high colored or smalling, with weakness in the small of the back, it should not be trifled with or delayed, but Koskoo should be taken at once to remedy the difficulty, before a lesion of the organs takes place. Most of the diseases of the Bladder originate from those of the Kidneys, the urine being imperfectly secreted in kidneys, prove irritating to the Bladder and Urinary passages. When we recollect that medicine never reaches the Kidneys except through the general circulation of the Blood, we see how necessary it is to keep the Fountain of Life Pure.

KOSKOO!

MEETS WITH GREAT SUCCESS IN THE CURE OF

Diseases of the Nervous System.

Almost nine-tenths of our people suffer from nervous exhaustion, and are, therefore, liable to its concomitant evils of mental depression, confused ideas, softening of the brain, insanity, and complete breaking down of the general health. Thousands are suffering to-day with broken-down nervous systems, and, unfortunately, tobacco, alcohol, late hours, over-work, [mental and physical] are causing diseases of the nervous system to increase at a fearful ratio.

The symptoms to which diseases of the nervous system give rise, may be stated as follows. A dull, heavy feeling in the head, sometimes more or less severe pain or headache; Periodical headache, Dizziness, Noises or Ringing in the Head; Confusion of Ideas; Temporary Loss of memory; Dejection of Spirits; Starting during Sleep; Bad Dreams; Hesitation in answering questions; Dulness of Hearing; Twitching of the Face and Arms, &c., which, if not promptly treated, lead to Paralysis, Delirium, Insanity, Impotency, Apoplexy, &c., &c.

CONCLUSION.

Suffering reader, do not think that because you have tried other remedies, you cannot be cured, but recollect that God, in His Providence, has not afflicted His children with pain and disease without at the same time giving them something in the Great Garden of Nature that will cure them.

Have no hesitation in writing to me, and stating your case in full, and I will answer you promptly.

RAILROADS.

TO SHIPPERS.

NORTH CAROLINA

ALL STATE

RAILWAY LINES, (THAT USED TO BE!)

THE OLD RALEIGH & GASTON RAIL ROAD THE SHORTEST, QUICKEST, SAFEST AND BEST LINE, NORTH AND SOUTH, TO BE LEFT OUT IN THE COLD, UNLESS SHIPPERS SPECIALLY SAY VIA R. & G. R. R.!

WE inaugurated and are the *Great* through *Inland Air Line Route* to all the Northern Markets, and have successfully worked the Line to the entire satisfaction of shippers, North and South, for the last ten years, as the ten Thousand shippers in North and South Carolina will testify. We paid the State near Seven Hundred Thousand Dollars for her interest in this Road—thereby saving the people from Taxation for all time to come $40,000 per year; and we unhesitatingly declare that we can and will give more dispatch to all points, North and South, than any other Line.

NOTICE!

The Great Inland Air Line Freight

ROUTE,

Via THE RALEIGH & GASTON RAIL ROAD,

is the Short Line for Shippers, and you are required so to direct your Freights, or they will be taken by another Route!

To insure your Freight being carried over this *Great* Inland Air Line safely, direct your consignments to mark your Freight, Care of Rail Road Agent, Portsmouth, Va., or City Point, Va., via Raleigh & Gaston Rail Road, and to ship as follows:

FROM BOSTON:

Merchants' & Miner's Line, end of Central Wharf, E. sampson, Agent.

FROM NEW YORK:

Old Dominion Steamship Co., shipping Point, Pier 37 North River, Foot Beach St., Office 187, Greenwich St. Cor. Day; N. L. McCready, President.

FROM PHILADELPHIA:

Via Annamessex, Phila., Wilmington and Baltimore Depot, or Clyde's Line of Steamers, 14 N. Delaware Avenue, W. P. Clyde, Agent.

FROM BALTIMORE:

Baltimore Steam Packet Co., Bay Line Steamers, Foot Union Dock, L. B. Parks, Agent, of Powhatan Steam Boat Co., 90 Light Street Wharf.
